Ona Rehn

S t u d e n t

About

An 19-year-old information and communication technology student based in Tampere, Finland with a future goal of working as a front-end developer. Great at both independent and teamwork. Not afraid of challenges, and enthusiastic about learning new skills and problem solving.

Career Objective

Interested in front-end development work, editing and testing

Core Skills

Team worker, but also able to manage independently. I crave new information and things to learn
